Subject: application

I hereby apply for the open seat on the South Hero Planning Commission. Please tell me if I need to provide you with any further information. Thank you

Government Experience

- Member, Public Works Commission, Lenox, MA
- National Program Leader, U.S. Department of Agriculture
- Program Leader, U.S. Department of Commerce

What I Bring to the Commission

Many South Hero residents have expressed concerns about a seemingly strong pro-development bias exhibited by the Planning Commission over the last several years. Furthermore, although much of the commercial use of land in South Hero is for agriculture, none of the current Commissioners are farmers. I raise grass-fed beef using sustainable, non-polluting practices and sell to consumers in northwest Vermont.

I have attended numerous Planning Commission meetings. I will respect my fellow Commissioners and will seriously consider all viewpoints in my work on the Planning Commission.
